Assembly drawings on back

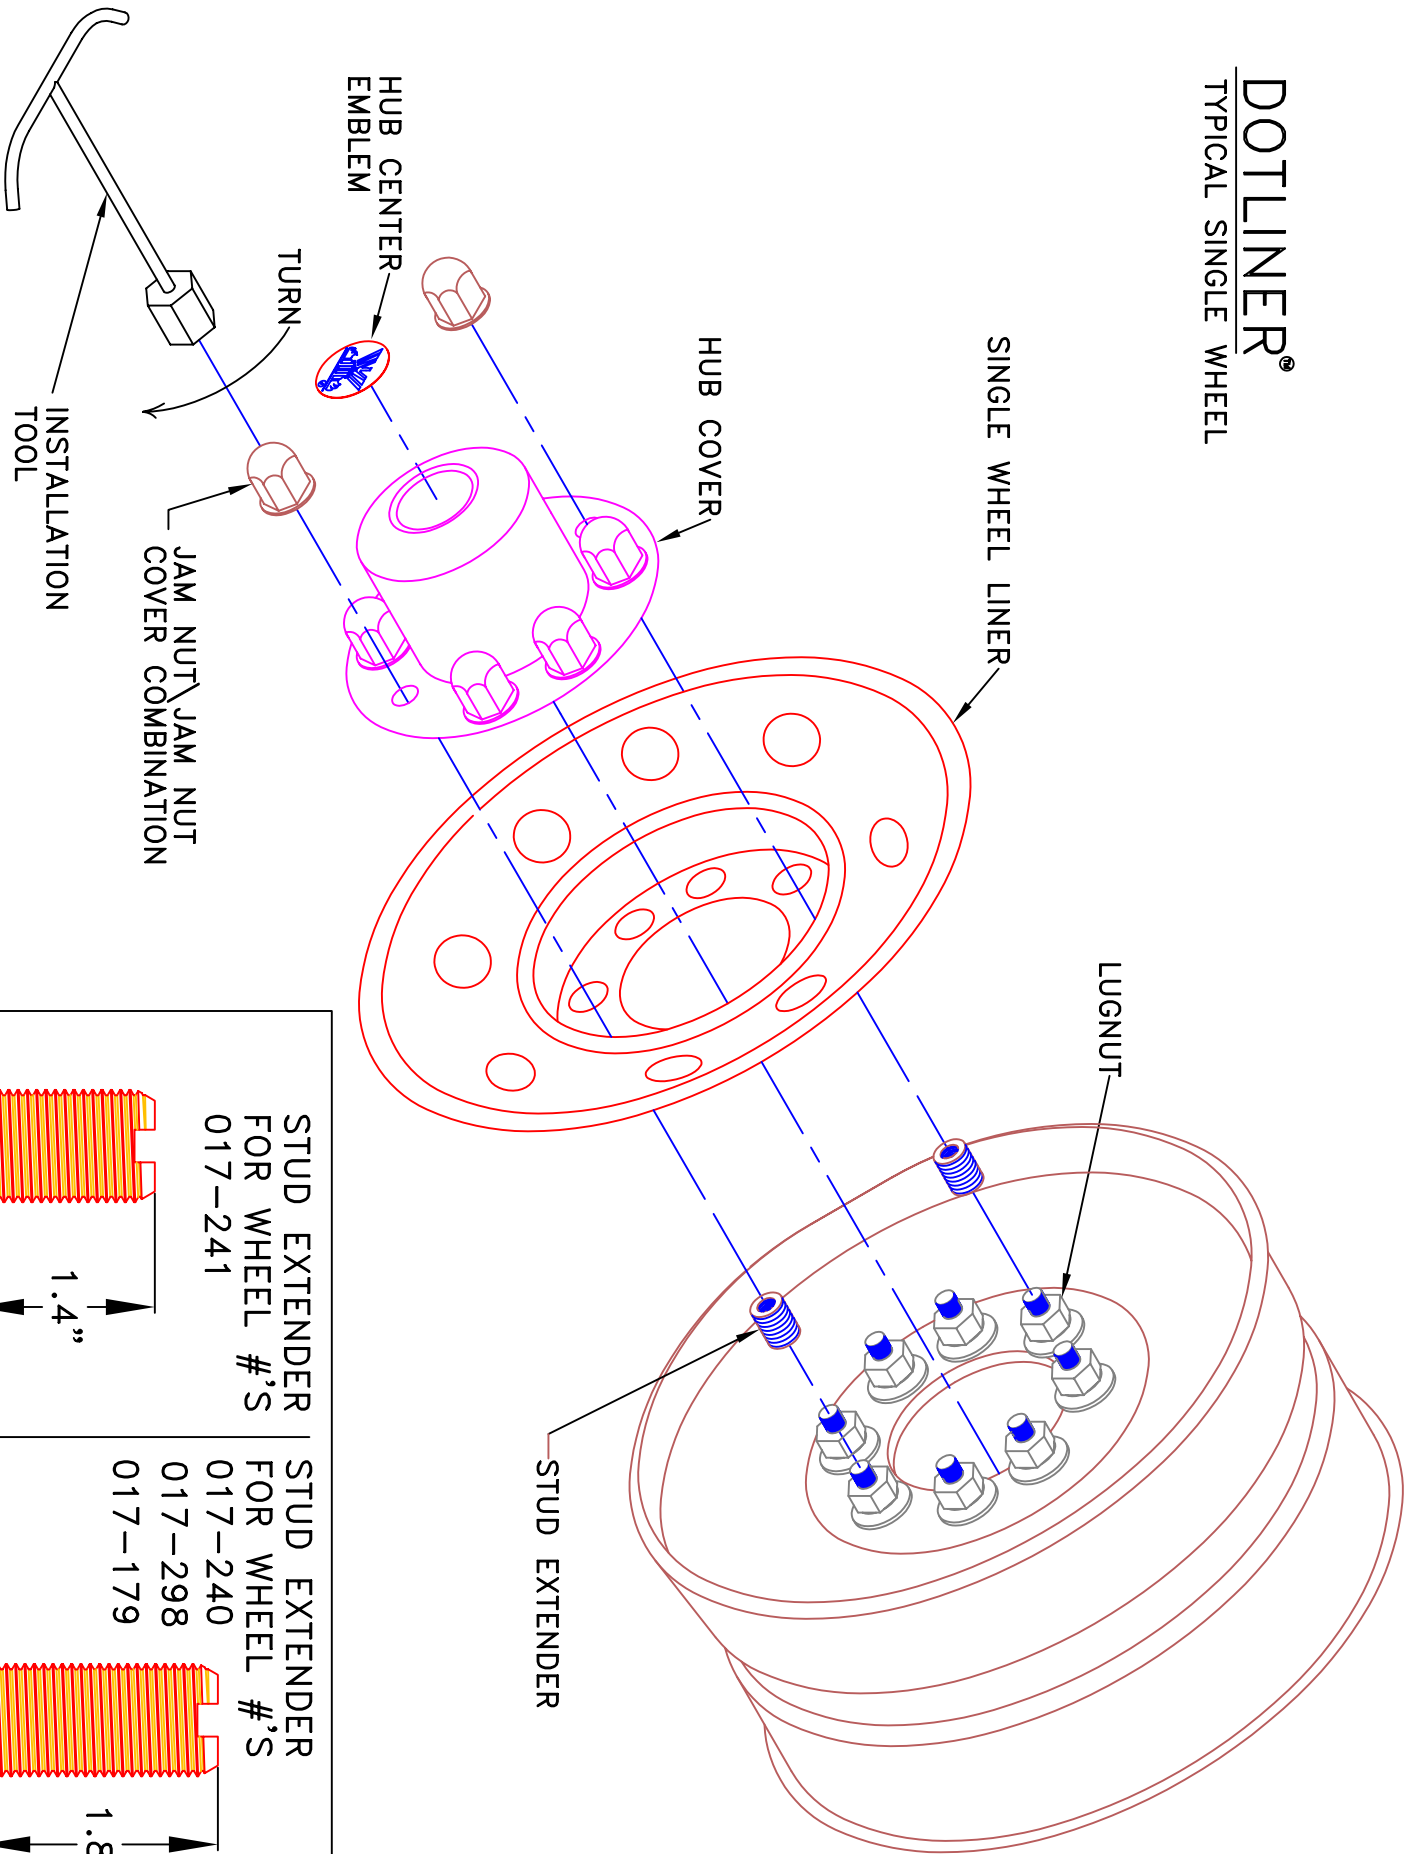

1. Do not remove the original equipment lug nuts.
2. Determine correct placement of stud extenders required for proper hand hole and valve stem alignment. Note: Some applications will require a specific stud extender. Please see the hardware bags for the correct stud extender to be used with your application.
3. Install appropriate stud extender on the portion of the wheel studs that protrudes through the original equipment lug nut on opposing studs (180° apart). Tighten stud extenders with included installation tool.
4. Install liner over stud extenders. Install hub cover over the stud extenders also.
5. Now, install the jam nut / jam nut cover combination onto the stud extender. Use the included tool to tighten jam nut / jam nut cover combination.
6. Complete the wheel cover installation by applying hub center emblem.
7. Repeat steps 2 through 6 for installation of other wheel and axle covers.

Phoenix USA, Inc. Wheel Simulator Limited Warranty

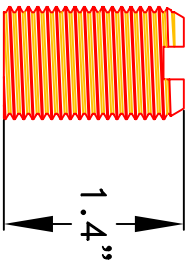

Phoenix USA, Inc. warrants the stainless steel wheel simulators it markets to be free from manufacturing defects for a period of 3 years from initial sale to the initial purchaser.
